

DEC 31 1954

Walter H. Mallory, Esquire
Council on Foreign Relations, Inc.
58 East 68th Street
New York 21, New York

Dear Walter:

I was delighted to receive your letter of December 17th with the stimulating news of the progress of the new annex and the research program.

The Council is indeed fortunate in getting Professor Mosely to be its Director of Studies. I have had many opportunities to observe the fruits of his scholarship and am convinced that you could not have made a finer selection.

I understand Bob Amory has outlined to you a couple of projects which we would be delighted to see your research group undertake. I gather these will be discussed in more detail when Professor Mosely comes to Washington next week.

With all good wishes for the new year,

Sincerely,

af
